Ceetec IPS400 TopFlow Automatic

The market's most revolutionary spraying machine for lacquering of interior profiles, window profiles, skirting, and panels.

Ceetec IPS400 TopFlow Automatic is a fully automatic machine developed with the latest technology. With CNC gun operation, the gun positioning may be performed during operation. This reduces overspray to a minimum.

The machine is suitable for indoor and outdoor wood sheathing, and it has a capacity of up to 200 meter per minute.

Profiles:

Based on Danish quality since 1970

Ceetec is founded in 1970. During all these years, Ceetec has produced machines for the global market focusing on simplicity and user-friendly operation. Today, Ceetec is a highly specialised niche company with a solid industry knowledge. Our product range consists of profile rolling mills, grinding machines, and painting machines.

High Finish Spray Painting

Ceetec IPS400 TopFlow Automatic leads the wood through the machine horizontally using an automatic propulsion. The liquid is applied with up to 8 guns, ensuring a high finish spray painting. The machine may be applied as a stand-alone machine or in a production line with, for example, drying and automatic feeding. We also offer Ceetec IPS400 TopFlow Automatic customised according to customer specific requests.

Advantages Ceetec IPS400 TopFlow

- Optimal for both indoor and outdoor sheathing
- CNC operated guns
- Direct operation of gun position during operation
- High reutilisation of overspray
- Collection of overspray in plastic bags
- No cleaning when changing paints
- Paint change can be performed in as little as 3 minutes
- Brush component available

Technical Data

Capacity

Up to 200 meter/minute

Object Dimensions

Standard 400 x 100 mm

Electricity Connection

3 x 380 V + PE IP. Class 54

Weight

Approximately 1500 kg
